

LAND & WATER, PROTECTED FOREVER

This is what conservation makes possible.

Broad Water Innovations protects land and water across Virginia and beyond, and keeps it safe, in perpetuity.

OUR PURPOSE

We acquire, protect, and steward land and water, then keep our promise forever.

Across the mid-Atlantic, wetlands, streams, and open space vanish a little more every year, to development, to rising water, to time. Most of what is lost never comes back.

Broad Water exists to make protection permanent: holding the easement, funding the endowment, and stewarding the land so the places that survive, survive for good.

Specialists in protecting land for good:

- Hundreds of projects across Virginia and the country
- Hands-on experience with state and federal agencies and private conservation groups
- A team of ecologists, lawyers, and conservation consultants

SERVICES

What we provide

- Conservation easement holder
- Long-term steward of mitigation banks
- Endowment management
- Long-term management plan development
- Terrafirma title insurance

WHY BWI The Broad Water advantage

4-STAR CHARITY NAVIGATOR · LTA MEMBER · IRT-APPROVED

All three roles, one partner

Easement holder, long-term steward, or endowment manager: any one role, or all three. One partner for the whole obligation.

Approved in 13 districts

An approved long-term steward in 13 USACE districts across 11 states, from Virginia to Missouri.

Monitored every year, forever

Every easement monitored annually in perpetuity, backed by a dedicated stewardship endowment built to fund that promise for good.
